Independent Auditors' Report

To the Members of the Commission of the
Genesee County Building Authority

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Genesee County Building Authority (the Authority) (a component unit of Genesee County, Michigan) as of and for the year ended September 30, 2006, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Genesee County Building Authority, as of September 30, 2006, and the respective changes in financial position, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis as identified in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Genesee County Building Authority's basic financial statements. The accompanying other supplemental information, as identified in the table of contents is presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

As management of the Genesee County Building Authority, we offer readers of the Genesee County Building Authority's financial statements this narrative overview and analysis of the financial activities of the Genesee County Building Authority. The Debt Service funds are used to record lease revenue and annual bond payments related to capital projects and the Capital Projects funds record the activity for the purchase and construction of buildings and major equipment purchases using the debt proceeds.

The basic financial statements for the Genesee County Building Authority are comprised of the governmental funds balance sheet/statement of net assets, combined statement of revenues, expenditures, and changes in fund balances-statement of activities and notes to the financial statements.

The statement of net assets presents the information of the governmental funds for both the assets and liabilities, with the difference between the two reported as net assets.

The statement of activities present information showing how the governmental funds net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the governmental funds financial statements.

Financial Highlights

The following table shows in a condensed format, the net assets of the current year compared with the prior year:

Summary Condensed Statement of Net Assets

	<u>2006</u>	<u>2005</u>
Current assets	\$ 391,647	\$ 726,327
Noncurrent assets	<u>16,055,000</u>	<u>18,870,000</u>

Total liabilities	<u>16,248,578</u>	<u>19,117,280</u>
Net assets - unrestricted	<u>\$ 198,069</u>	<u>\$ 479,047</u>

Net assets decreased by \$280,978 to stand at \$198,069 at September 30, 2006 as Genesee County reduced leased payments paid to the Authority to reduce excess funds held by the Authority.

Total long-term debt decreased by debt principal payments of \$2,815,000.

The following table shows the revenue, expenses and changes in net assets of the current year compared with the prior year:

Condensed Statement of Activities

	<u>2006</u>	<u>2005</u>

Net assets – beginning	<u>479,047</u>	<u>570,762</u>
Net assets – ending	<u><u>\$198,069</u></u>	<u><u>\$ 479,047</u></u>

Total revenue decreased by \$947,174 and total expenses decreased by \$757,911 due to a drop in the amount of outstanding debt that the Authority had relative to both years. In 2005 Genesee County undertook a bond defeasance which significantly reduced the amount of outstanding debt of the Authority and transferred some of the debt to the County.

Genesee County Building Authority
Notes to Financial Statements
September 30, 2006

1. Summary of significant accounting policies

The accounting methods and procedures adopted by the Genesee County Building Authority (the Authority) conform to accounting principles generally accepted in the United States of America as applied to governmental entities.

Financial reporting entity:

The Genesee County Building Authority was created in 1967, pursuant to the provisions of Act 31 of the Michigan Public Acts of 1945, First Extra Session. The Authority has no stockholders and all monies received are to be used for certain specified purposes in accordance with the agreement between the County of Genesee, the Authority, and its bondholders. The sole purpose of the Authority is to oversee the construction of selected county facilities from bonds or notes that are issued by the Authority on behalf of the County.

The Authority is a component unit of Genesee County (the County's primary government) due to its financial relationship with the County. As such, its financial statements are included in the comprehensive annual financial report of the County as a blended component unit.

Basis of presentation:

Government-wide and fund financial statements

A combined presentation of the government-wide financial statements and the fund financial statements is reported.

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the Authority.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expense are those that are clearly identifiable with a specific function. These expenses include interest on debt and other direct administrative expenses. Program revenues include rental payments charged to Genesee County and other building tenants, which pays for the interest costs of the debt that was issued.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period which is generally 60 days. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures, are recorded only when payment is due.

Investments:

Investments, when purchased, are stated at fair value. The Authority considers all highly liquid investments (including governmental mutual funds) with a maturity of 90 days or less at the date of purchase to be cash and cash equivalents.

1. Summary of significant accounting policies – (continued)

Revenues:

Program revenues included interest and fees on lease receivables.

Budgetary data:

The Authority does not adopt a budget for the debt service or capital project funds.

Eliminations:

Interfund activity in the government-wide statement of activities has been eliminated.

2. Deposits

Michigan Compiled Laws section 129.91 (Public Act 20 of 1943, as amended), authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivision, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan. The Authority's deposits and investment policies are in accordance with statutory authority.

The Authority's cash and cash equivalents consist mainly of various checking accounts and certificates of deposits.

The Authority has designated five banks for the deposit of its funds. The depositories are: Citizens Bank, Comerica Bank, Chase, CTN Bank, and LaSalle.

The Authority's cash and investments are subject to certain types of risk, which are examined in more detail below:

Custodial credit risk of bank deposits:

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the Authority's deposits was \$ 29,692 and the bank balance was also \$ 29,692. Of the bank balance, \$ 29,692 was insured by F.D.I.C. insurance.

3. Lease contracts receivable

The Authority has entered into various lease agreements with the County and other governments for buildings acquired or constructed by the Authority. These agreements generally terminate with the retirement of the related bond issues. Leases receivable are reported at an amount equal to the lesser of the actual bond-financed construction costs incurred to date less bond principal payments made to date or the outstanding bond principal. Annual lease payments under these agreements are equal to the related bond principal and interest due each year. At termination of a lease, title to the leased property is passed to the county or other government.

Genesee County Building Authority
Notes to Financial Statements
September 30, 2006

3. Lease contracts receivable – (continued)

Under the accrual basis of accounting and the provisions of FASB (Financial Accounting Standards Board) Statement No. 13, *Accounting for Leases*, the Authority's leases are classified as sales leases. As a result, leases receivable are recognized in the accompanying statement of net assets, whereas capital assets are not.

All lease agreements provide for the lessee to use, operate and maintain the property, at its own expense, subject to the terms and conditions of the agreements.

The annual lease rentals are sufficient to repay the capitalized bond and interest payments. Revenue represented by the noncurrent portion of the lease receivable is deferred until it becomes a current revenue.

Future minimum lease payments scheduled to be received by the Authority are as follows:

G. Series 2002-B Building Authority Bonds – (continued)

Bonds maturing prior to May 1, 2013, are not subject to redemption prior to maturity. Bonds maturing on and after May 1, 2013, are subject to redemption prior to maturity, at the option of the Authority, in such order as shall be determined by the Authority, in whole or in part, on any one or more interest payment dates, on and after May 1, 2012, in integral multiples of \$5,000 and by lot within a maturity, at the par value of the bond or portion of the bond called to be redeemed plus accrued interest to the date fixed for redemption.

H. Bond fund principal requirements are as follows:

2007	\$ 2,555,000
2008	2,600,000
2009	2,715,000
2010	700,000
2011 and after	<u>7,485,000</u>
	<u><u>\$16,055,000</u></u>

5. Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between governmental fund balance sheet and the government-wide statement of net assets:

The government fund balance sheet includes an adjustments column to reconcile between fund balance – total governmental funds and net assets- governmental activities as reported in the government-wide statement of net assets. An explanation of the adjustments is as follows:

Total Government Funds fund balance at September 30, 2006	\$ 198,069
Long term debt is not due and payable in the current year and therefore is not reported in the funds.	16,055,000
Lease revenue related to future years is not a current resource and therefore, deferred in the funds, however, the amounts are economic resources that are available to pay the long-term debt.	<u>(16,055,000)</u>
Total net assets at September 30, 2006	<u><u>\$ 198,069</u></u>

5. Reconciliation of government-wide and fund financial statements – (continued)

- B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:

The governmental fund statement of revenues, expenditures and changes in fund balances includes an adjustment column to reconcile between net changes in fund balances- total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. An explanation of the adjustments is as follows:

Excess of revenues and other sources over expenditures and other uses	\$ (280,548)
Lease revenue received to pay the principal on long-term debt is a current financial resource for the funds but is not for the government-wide financial statements since it already has been accrued in a prior period to pay the principal.	(2,815,000)
Bond principal paid is a use of current financial resources for the funds, but the debt is on the balance sheet for the statement of net assets and therefore, is reclassified	<u>2,815,000</u>
Change in net assets	<u><u>\$ (280,548)</u></u>

6. Maintenance of leased property

All lease agreements with the County of Genesee state that the County will use, operate, and maintain the land and structures owned by the Authority. The County, at its expense, shall pay all ordinary operating, repair, and maintenance expenses.
